January 25, 2010 12:05 AM Eastern Time

VANCOUVER, British Columbia--(EON: [Enhanced Online News](#))--Paramount Business Jets is proud to offer our clients a unique and unforgettable [private jet charter](#) experience this winter with a chance to be a part of history at the upcoming XXI Olympic Winter Games in beautiful Vancouver, British Columbia, Canada. Held from February 12-28th 2010, the Olympic Winter Games will include a wide variety of events such as Alpine Skiing, Bobsleigh, Cross Country Skiing, Figure Skating, Snowboarding and much more.

Due to the number of individuals travelling to the Games this Winter we anticipate a significant increase in demand for [jet charter](#) travel during the Games and have been notified of very restrictive security procedures for all private jet charter and commercial aircraft. The Vancouver Winter Olympic security requires all aircraft traveling into Vancouver International to pass several layers of security, including landing at a "Gateway Airport". This is complemented by an extensive security check of passengers and the aircraft before the aircraft is allowed to continue on to Vancouver. Furthermore, all aircraft operators are required to secure a ramp reservation, a slot time reservation to the gateway airport where security checks will be performed and an additional slot time reservation at Vancouver International. Finally once in Vancouver, passengers and crew will be required to clear customs before being allowed to exit the [private jet](#).

No matter which games you plan to attend, Paramount Business Jets has put together a comprehensive private jet charter Olympic Games package to ensure that you arrive at the events in the utmost luxury and comfort. Our experienced [executive jet charter](#) professionals will also be able to organize all aspects of your trip, including security procedures to ensure that your trip is safe, comfortable and stress free. Our private jet charter Olympic packages include air transportation on a variety of luxurious aircraft ranging from smaller mid-size jets such as the Learjet 55 to heavy aircraft such as the Boeing Business Jet for larger groups; as well as ground transportation to and from the events and venues. We are also able to arrange hotel accommodations, resort bookings and more upon request. Due to the restrictive security procedures that are in place we advise all those travelling to give themselves plenty of time to reach their destination before the events that they plan to attend.

Our comprehensive logistical plans for the Winter Olympics have been put in place to make your Olympic travel both convenient and efficient and we encourage you to contact us should you have any questions, comments or concerns.
