(PressZoom.com) - Paramount Business Jets is proud to offer our clients a unique and unforgettable experience this winter with a chance to be a part of history at the upcoming XXI Olympic Winter Games in beautiful Vancouver, British Columbia, Canada. Held from February 12-28th 2010, the Olympic Winter Games will include 86 winter sports and events such as Alpine Skiing, Bobsleigh, Cross Country Skiing, Figure Skating, Snowboarding and much more. With over 97 nations qualified as of November 12th 2009, the 2010 Olympic Winter Games promises to be a spectacular international event with spectators and visitors expected from all corners of the World.

Due to the number of individuals travelling to the Games this winter we anticipate a significant increase in demand for private charters during the Games and have been notified of very restrictive security procedures for all private aircraft. The Vancouver Winter Olympic security requires all private aircraft traveling into Vancouver International to pass several layers of security, including landing at a "Gateway Airport". This is complemented by an extensive security check of passengers and the aircraft before the aircraft is allowed to continue on to Vancouver. Furthermore, all aircraft operators are required to secure a ramp reservation, a slot time reservation to the gateway airport where security checks will be performed and an additional slot time reservation at Vancouver International. Finally once in Vancouver, passengers and crew will be required to clear customs before being allowed to exit the aircraft.

These security procedures are rather complex and can be confusing but no matter when you plan to attend, Paramount Business Jets has put together a comprehensive Olympic Games package to ensure that you arrive at the events hassle-free in the utmost luxury and comfort. Our experienced charter professionals will be able to organize all aspects of your trip, including security procedures to ensure that your trip is safe, comfortable and stress free. Our Olympic packages include air transportation on a variety of luxurious aircraft ranging from smaller mid-size jets such as the Learjet 55 to heavy aircraft such as the Boeing Business Jet for larger groups; as well as ground transportation to and from the events and venues. Due to the restrictive security procedures that are in place we advise all those travelling to give themselves plenty of time to reach their destination before the events that they plan to attend.

In addition to Olympic packages, Paramount Business Jets is proud to offer our regular concierge services to all those travelling to the Games. Our service professionals are dedicated to making your trip more enjoyable, comfortable and productive and will work closely with you to learn about your personal travel requirements and help you plan and manage every aspect of your trip. Whether it is gourmet meals, transportation, hotel arrangements, or even event tickets, our dedicated team of service professionals are able to provide you with virtually any convenience or amenity you require.

Our comprehensive logistical plans for the Winter Olympics have been put in place to make your Olympic travel both convenient and efficient and we encourage you to contact us should you have any questions, comments or concerns. To book an Olympic package and/or discuss your travel plans with a charter professional please feel free to contact us.
